

FIS SEASON IDENTIFICATION SYSTEM 2014/2015 - ALPINE

The concept of the FIS Season Identification system is based on the application of a set of standard access zones (1-8) designed to enable consistency and optimise working efficiency across the FIS World Cup venues.

The Identification Matrix illustrates the method for authorisation and distribution of the FIS Identification Status for the Categories/Functions currently in use. The general definitions for each Standard Access Zone and Category provide guidance for the recommended access for each function.

FIS Season Identification Matrix

STANDARD ACCESS ZONES

- | | |
|-----------------|------------------------|
| 1 Team Area | 5 TV/Radio Area |
| 2 Industry Area | 6 Media Centre |
| 3 Media Area | 7 Timing/Data Area |
| 4 Photo Area | 8 Priority Lift Access |
